Reagarding: Mr. Abraham Safirstein

To whom it may concern,

I have known Mr. Abraham Safirstein for many years as a serious and trustworthy person. I am a radiologist with over 30 years experience and had the opportunity of reviewing imaging results of several cancer patients that followed his program. Many of them had positive outcomes that are unusual by conventional means, including some that I considered terminal at first impression and ended up in substantial improvement or full remission.

It is refreshing to see that he was able to transform the tragedy of losing a son to cancer into an endeavor to help other people overcome it by sharing the fruits of his many years of research.

Yours sincerely,

A handwritten signature in black ink that reads "Avrum J Epstein MD". The signature is written in a cursive, flowing style.

Dr. Avrum J. Epstein, MD Diagnostic , Interventional and MRI-MSK Radiologist
